

One Watershed, One Plan: MN River – Mankato

Steering Team Meeting Minutes

We convened our Steering Team meeting on Monday, December 4, 2023. In the course of the meeting, we finalized the draft of our Memorandum of Agreement, which is scheduled to be dispatched for legal review or Board signatures this Friday, December 8, 2023. Additionally, we made a request for the Steering Team to nominate their Policy Committee representatives by the end of January, with plans to have our first Policy Committee meeting sometime in February. The consultant selection process was also discussed, and everyone contributed to a list of contractors for outreach.

Furthermore, we conducted a thorough review of our work plan, making necessary corrections.

In relation to the by-laws, it was decided to wait for the Policy Committee meeting before drafting them, but a sample will be prepared for the commissioners.

Our next steering meeting is scheduled for Wednesday, January 27, 2024.
